

City Council Reconsiders Swimming Pool Bond Issue

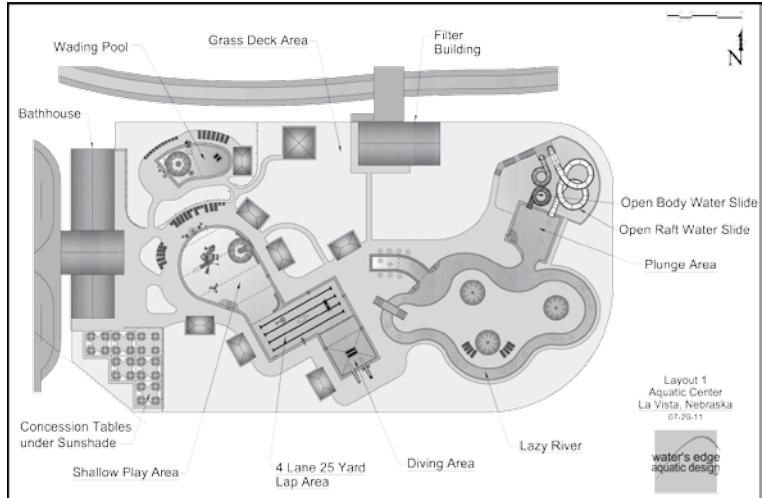

In 2012 La Vista residents will potentially have another opportunity to vote on whether they want a new swimming pool facility for the generations to come. A conceptual plan presented to voters in 2008 was narrowly defeated by 305 votes. The City Council recently determined that the design concept presented to voters in 2008 should be submitted again and has directed staff to take the necessary steps to prepare this issue for the ballot.

The aging infrastructure at the current facility has resulted in uncertainty for several years about the continued operation of the pool. For two consecutive summers, City crews have had to make extensive repairs to some portion of the infrastructure in order for the pool to be operational, including this summer when the wading pool opened a month late. At nearly 50 years old, parts are no longer manufactured for the pool. If the pool experiences an infrastructure failure and parts are not available, the City Council would be faced with a difficult decision on whether to make very costly repairs or close the pool. The proposed project seeks not only to maintain an amenity La Vista residents have come to expect but to also add to the quality of life for those living here.

Since the 2008 bond issue election, the future of La Vista's pool has been an ongoing discussion for the City Council. As elected officials, Councilmembers see it as their duty to be good stewards of the taxpayer's resources and to responsibly respond to the repair requirements of the pool. Being sensitive to the economic times, Councilmembers have struggled with the timing of a bond issue while also striving to provide a high quality of life to La Vista residents.

Ultimately the Council concluded that it is once again necessary to ask voters to consider a bond issue for a new swimming pool based on the original concept and the following factors:

- Significant portions of the pool's infrastructure have reached the point in their lifespan where they soon will fail, basic parts are no longer available and extensive repair will be required.
- As a city of more than 17,000 people, La Vista's current pool facility is inadequate for the existing population both in terms of the amount of water surface and features offered (i.e. diving boards, water slides, etc.)
- Redevelopment of the 84th Street corridor is a high priority for residents. A new pool in the existing location would be one of the first steps in the realization of Vision 84 and would improve access from 84th Street via a new connection at Summer Drive.

- A 2008 Citizen Survey revealed that more than 80 percent of respondents were supportive of the need for a new swimming pool.
- Many public participation opportunities were key to development of the swimming pool concept.
- Data gathered by Water's Edge Aquatic Design confirms that the size of the proposed pool is appropriate for La Vista's population.

If approved, the new municipal pool would be located on the site of the existing pool facility, and would contain approximately 14,471 square feet of water surface.

Key features of the new swimming pool would include:

- Wading pool with zero-depth entry and toddler area.
- Lap and recreational pool with zero-depth splash area and diving board.
- Lazy River area with water slides and bridge.
- Other features, including a rental shelter and admissions/bathhouse facility.
- Connection to 84th Street from the extension of Summer Drive.

Total cost for the project including construction, right-of-way acquisition and financing is \$8.5 million. What does this mean for the taxpayers in La Vista? If you own a home in La Vista valued at \$150,000, your property taxes would increase by \$81.75 annually, or \$6.81 per month.

For more information on the proposed swimming pool project, visit the City's Web site, www.cityoflavista.org/poolproject.

A MINUTE WITH mayor kindig

In addition to summer events, we have been working hard recently to prepare the fiscal year 2011-12 budget,

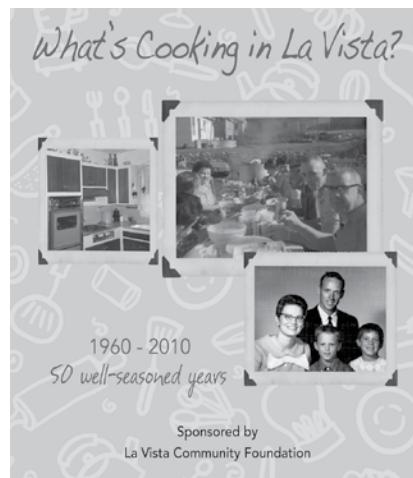

continuing negotiations on a new 911 agreement and gathering information about the best future direction for our municipal pool.

Two budget workshops were held in July. These workshops give the elected officials and public an opportunity to look in detail at the proposed budget and future projections. You can read more about the City's budget on page 4.

Work also continues on negotiating a 911 agreement. Let me reiterate what we told you last year when these negotiations were featured in numerous news stories - the residents of La Vista will never be without 911 services. I, and the City Council, would never let that happen. We hope to have some news soon on this issue, so watch the City's Web site and future issues of CityWise for more information.

For two consecutive summers, City crews have had to make extensive repairs to some portion of the pool infrastructure in order to have it operational for the season. I think this highlights what we already know, and that is, La Vista's pool is aging and repairs are becoming more frequent and more extensive. As you read on the cover of this newsletter, voters could potentially be asked to vote on a bond issue in 2012 for a new pool.

— Mayor Douglas Kindig

Cookbook Reminder

The La Vista Commemorative Cookbook, "What's Cooking in La Vista", produced last year in conjunction with the City's 50th anniversary, is still for sale at La Vista City Hall, 8116 Parkview Blvd. and Divine Truth Christian Bookstore, 84th and Harrison Streets.

The book contains recipes from longtime residents, former and current city officials and employees. The cost per book is \$20 and all proceeds benefit the La Vista Community Foundation.

Holiday Traditions

La Vista will once again kick-off the holiday season with two special events on **Sunday, November 27 and Monday, November 28**.

Santa Claus will make his annual visit to La Vista on Sunday evening with a sleigh ride through the city, escorted by volunteers from the Public Works, Police and Fire departments.

As we understand the information from the North Pole, Santa will depart from the City Hall parking lot at 5 p.m. on Sunday, Nov. 28. He plans to be west of 84th Street between 5 and 6 p.m., between 84th and 72nd streets from 6 to 7 p.m. and east of 72nd Street from 7 to 7:30 p.m. Times and travel route could vary based on traffic, weather and other conditions.

Festivities will continue on Monday night with the annual Tree Lighting Ceremony and Soup Supper at the Community Center. The event will begin at 6 p.m. when Santa will return and light the outdoor tree.

Immediately following the tree lighting, the Mayor and City Council will host a soup supper inside the Community Center gymnasium along with holiday entertainment. Free-will donations to the Tri-City Food Pantry will be accepted. Hot chocolate and treats will also be available while children tell Santa their holiday wishes.

For more information, call the La Vista Community Center, 402-331-3455.

Halloween Safe Night

Join the City of La Vista and the La Vista Fire Department for the annual Halloween tradition!

SIMPLE ACTIONS CAN PREVENT LARGE DISASTERS

Recent fires at the Alpine Village and Shadow Ridge apartment complexes in La Vista and at the Ponderosa Pines apartments in Ralston have put the spotlight on the dangers associated with smoking in multi-family buildings.

These fires displaced more than 100 people and all three have been blamed on improper disposal of smoking materials. In the past three years, La Vista firefighters have responded to 10 smoking-related fires, which is the third most common cause of a fire in the home.

The La Vista Volunteer Fire Department offers these tips to those living in apartment buildings:

- Above all, avoid smoking in or near a building - instead do so on the ground floor and away from the structure
- Never leave lit cigarettes, candles or grills unattended
- Never smoke when you are lying down, drowsy, or in bed
- Never smoke while handling flammable liquids such as gasoline
- Cigarettes burn at up to 700 degrees so make sure when you put it out, it really is out

- Cigarette butts and ashes should be doused with water before being thrown into the trash
- Always use a proper ashtray and make sure it can't be knocked over
- Before emptying ashtrays make sure the contents are cold
- Practice good housekeeping - trash and clutter gives fire a place to start

Visit the La Vista Fire Department on the City's Web site, www.cityoflavista.org, for a fire safety checklist for your home.

LVFD ADDS 22 NEW FACES

On Tuesday, June 7, the La Vista Volunteer Fire & Rescue Department welcomed 22 new recruits to the ranks, 13 of which are now three months into their Emergency Medical Technician/Basic class. This class will conclude in November allowing them to take their National Registry Exam and apply for a Nebraska License. The remaining nine recruits have already completed their EMT training. In January, these new recruits will attend fire school to obtain their Firefighter One Certification from the State of Nebraska.

City Approves Budget for FY 2012

In preparing La Vista's budget for fiscal year 2012, City officials focused on three things: providing for the efficient and effective delivery of services, implementing the Mayor and City Council's strategic plan and maintaining an adequate level of cash reserve.

La Vista is one of the fastest growing cities in the State of Nebraska and continues to face the challenges associated with such rapid growth, namely providing high-quality public services to an expanding population while remaining fiscally responsible. The recently released census data indicates that over the last 10 years the City's population has increased by nearly 46 percent. During that same time, La Vista has solidified its position as a statewide economic development leader, facilitated a plan for major redevelopment in the heart of the City, and extended City services as far west as Interstate 80.

Managing rapid growth and remaining fiscally responsible is challenging in the best economic times. The fact that the regional and national economy has become unstable and unpredictable over the past several years has made that challenge even more difficult. While the Midwest has been fortunate economically when compared with the nation as a whole, there has been an impact.

La Vista's property valuations saw sluggish growth last year. Over the last ten years valuations have increased by an average of 11% annually. This year the increase in valuation is less than 1% despite recent annexations, which is at least \$63 million less than anticipated. A decline in the valuation of many existing properties has offset the additional valuation taken in through annexation. And, property values are expected to remain fairly static for the next several years. Additionally, the State of Nebraska eliminated all state aid to cities during the last legislative session which resulted in a loss of approximately \$100,000 for La Vista.

Efforts have been made to keep expenditures under control; however maintaining existing services in a growing community that is also seeing increased business activity results in increased costs. Budgeted expenditures for next year in the general fund, which covers the City's operating expenses, show a modest 1.7% increase over the current year.

The other area that factors into the total tax levy is the bond fund, which covers debt service payments on facilities such as the library, police station, and the District 2 fire station as well as development debt taken on through annexation.

The City has managed to keep operating expenses down and meet its debt obligations for the past several years without increasing taxes. Looking forward, the City's debt obligations peak in the next few years and that fact, combined with the flat property values and loss of state aid, have resulted in the Mayor and Council approving a budget with a 2.6 cent property tax increase. For the owner of a home valued at \$150,000, this translates to an increase of \$39.75 per year or \$3.31 per month. Some of the services you receive for this payment include police, fire and EMS protection, well-maintained streets that are promptly cleared of snow and ice in

the winter, and amenities including a wonderful library, community center and beautiful parks.

Anticipating that the economic recovery will take some time, the next few years will be lean ones in terms of the City's budget. However, the long term prognosis for La Vista is very good. The investment made in infrastructure is providing development opportunities, and City facilities such as the Library provide great quality of life amenities for residents.

"This budget recognizes the uncertain economic environment and difficult budget choices the City has made over the last several years," said Mayor Douglas Kindig. "In a growing city such as La Vista, not adding staff, delaying the purchase of equipment and waiting on desired projects is very similar to making budget cuts. Despite the challenges we currently face, La Vista will continue to flourish and will continue to be a great place to live, work, play and do business."

Summer Events 2011: What did you think?

The City is always looking for ways to improve activities and events, and we need your help to make them better.

Have you enjoyed the outdoor movies and concerts this summer? If so, which ones did you attend and what did you like about them? What did you think about La Vista Daze? What did you like and what would you have done differently?

Feedback received from the community will be taken into account when planning next year's events. We want to know what you think.

Please visit the City's Web site www.cityoflavista.org/2011events to fill out a brief survey.

For La Vista Daze events, go to www.cityoflavista.org/lavistadaze.

If you or someone you know is interested in serving on an event committee, please contact Community Relations Coordinator, Mitch Beaumont, at 402-331-4343.

NEW K9 OFFICER

Members of La Vista City Council were introduced on June 7 to the La Vista Police Department's newest officer - a 60-pound Dutch Shepherd named Tar.

Tar is trained in tracking, article recovery, narcotics and handler protection.

The dog is from the Netherlands and takes commands in Czech, German or English - but only from his handler, Officer Mike Loyd.

Tar and Officer Loyd went through a 14 week training program along with K9 teams from Council Bluffs and Omaha at the Omaha Police Academy.

Tar and Loyd join Leda and Officer John Danderand to make up La Vista's Police Service Dog teams. The officers are supervised by Sgt. Bryan Waugh.

AVOID CAR BREAK-INS & THEFT FROM VEHICLES

La Vista residents and visitors are encouraged to help reduce the potential for car thefts and break-ins by using these simple yet effective ways to lessen the opportunity for criminal activity in our community.

1. Park your car in an area that is well lit.
2. Be vigilant, and park your car where you can watch it.
3. Do not leave your keys in the ignition or in the vehicle.
4. Do not keep valuables in the passenger compartment of your car.
5. Put your valuables in the trunk ("out of sight, out of mind").
6. Even if you're only gone for a short period of time, do not leave your wallet, purse, iPod, cell phone or anything of value in the car, it only takes a matter of seconds for someone else to reach in and grab them!
7. Vehicles with tinted windows are more likely to be broken into. The tinting hides the activities of the criminals while in your car.
8. Criminals also target cars with the adhesive type of window tinting because it muffles the sound of breaking glass.
9. Convertibles may look cool, but they can be expensive to repair if the criminals decide to slice a hole in the top to get to your iPod. Do not consider locked doors on a convertible as "safe".
10. Report any suspicious activity immediately! If you think you see someone breaking in to a car, call 9-1-1, if you need to report a theft from a vehicle, call our non-emergency number at 402-331-1353. If a break-in does occur, notify the La Vista Police Department immediately. Even if nothing of value has been taken or you feel that it is not worth reporting, let the police know anyway. There is a chance that other break-ins may have occurred and any information you provide may lead to an arrest.

Civic Park Master Plan

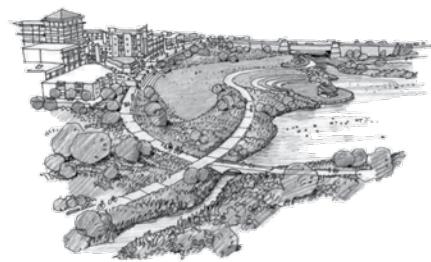

A long-range study to design the future Civic Park

Join in on the process!

The City of La Vista has contracted with RDG Planning & Design to facilitate a master plan for the future Civic Park, which was identified as one of the features of the 84th Street redevelopment plan.

The City will be hosting a number of public workshops in the months to come and as a resident of La Vista, you are invited to participate!

Watch the City's Web site for meeting dates and more information.

KEYSTONE TRAIL PROJECT TO BEGIN THIS FALL

La Vista Link/Keystone Trail Project - The long anticipated La Vista Link/Keystone Trail Project now has begun.

The project involves running a 10-foot wide concrete trail from South 69th Street, through the south end of the Sports Complex, crossing 66th Street to the Soccer Complex and then following 66th Street north, where it will connect to the existing trail on Harrison Street.

Eighty percent of the \$320,000 construction and engineering cost is being funded by a Federal Transportation Enhancement Grant. The City of La Vista is picking up 10 percent of the local share, with the Papio-Missouri NRD contributing the remaining 10 percent.

The project will provide alternative access to the Sports Complex via bicycle or pedestrian traffic. In addition, the path will provide residents living west of the Sports Complex access to the complex in a safer manner - currently there are no sidewalks on 66th Street for bike or pedestrian traffic.

A majority of the project should be completed in 2011; with some wrap-up work in spring of 2012.

IN CASE YOU WERE WONDERING...

Baby Pool - Visitors to the La Vista Municipal Pool earlier this summer may have noticed the baby pool was closed for repairs. They may have also noticed longer than normal rest periods early in the season at intermittent times in the main pool facility.

Both of these were the result of problems below the surface with aging pool infrastructure.

Public Works crews were able to isolate part of the baby pool problem to corroded sections of the drain pipe leading from the pump house to the baby pool. Three breaks in the pipe were allowing substantial amounts of air into the filtration system, called an air gap, which resulted in an automatic shut down of that pool.

Other problems include a cracked skimmer and an issue with a jet line.

A similar air gap issue is also suspected somewhere underneath the main pool facility, but fortunately the problem did not substantially interfere with operation of the main pool this summer.

72nd Street Pedestrian Overpass - The 72nd Street pedestrian overpass by G. Stanley Hall Elementary was closed for several weeks in July to allow for the repair of the retaining wall and to replace the concrete on the plaza on the west side of the overpass.
