A. An amendment to the PUD Plan for Lots 1-10, Southport East Replat Six, located in Section 18, T-14-N, R-12-E, of the 6th P.M., Sarpy County, Nebraska, generally located at Eastport Parkway and Giles Road.

   i. Staff Report: A public hearing has been scheduled to consider amendments proposed by staff to the PUD Plan for Southport East Replat Six. The original PUD Plan was drafted by the developer of Replat Six, however as staff has worked with the plan several provisions have been noted which conflict with the Southport East Design Guidelines. In general, the sections of the plan governing setbacks, landscaping and signage have been revised; other revisions
are proposed for the sake of simplicity, consistency of language, or were unnecessary (such as some of the definitions).

The draft of the proposed amendment has been mailed to the property owner(s) however they have not had adequate time to review the document and provide comments. Staff would like additional time for discussion and review.

Staff recommends continuance to the April 19, 2007 Planning Commission meeting.

Krzywicki wondered if changing the building setback might potentially put a building right on the property line. The back of the private curb is part of their lots.

Kottmann said it is intended to address situations where there are shared access drives that are centered on a common lot line. Using a 10 foot setback would place the setback within the paved area of the shared access drive. This attempts to get the building back from that shared access drive and the setback would be measured from the back of the curb rather than the property line.

Krzywicki asked if this would do anything with the ability to put sidewalks along those common streets. Kottmann said this is part of what is trying to be accomplished, to make sure there is a ten foot setback to allow landscaping and pedestrian space.

Krzywicki asked about the landscaping in section B. It looks like the reference to the size of the landscaping is being eliminated to make reference to the design guidelines. Is this to make things less restrictive? Birch said the two references contradict currently. The design guidelines are applicable to the whole subdivision.

B. An amendment the PUD Plan for Lots 1-3, Southport East Replat Seven, located in Section 18, T-14-N, R-12-E, of the 6th P.M., Sarpy County, Nebraska, generally located at Eastport Parkway and Giles Road.
