4. New Business

A. Conditional Use Permit – Casey’s – Lot 3 Harrison Hills

- i. **Staff Report – Cale Brodersen:** Brodersen stated that the applicant, Casey’s, is looking for a Conditional Use Permit to operate a convenience store with limited fuel sales. He said that the site is located approximately on Harrison and 118th Streets. He mentioned that the applicant will be giving a short presentation, but that he wanted to touch upon a few things before they came up. Brodersen said that a traffic impact analysis was completed for this project as well as one in conjunction with Streck to look at the combined impact of both locations. He said that the study showed that there may be some signal improvements required by the City of Omaha, so they put a condition in the CUP that any improvements to

the signals required by the City of Omaha must be made before the certificate of occupancy can be received. He then wanted to note that the cite is within the Gateway Corridor District, so the development does have to follow the city's design review process, which is almost complete, but there are a few items that need to be addressed prior to having a building permit issued to them. Brodersen stated that staff recommends approval of the Conditional Use Permit, contingent on the finalization of the design review process, as the CUP request is consistent with the Comprehensive Plan and the Zoning Ordinance.

- ii. **Applicant Presentation:** Rob Duvall, from Schemmer, came up and spoke on behalf of the applicant. He said that they are proposing the Conditional Use Permit for a 6,000 square foot convenient store on 118th and Harrison. He said that it will be a 24-hour store with 12 pumps. He stated that everything is designed per code and that he is there to show the site plan and answer any questions.

- iii. **Public Hearing:** Wetuski opened the public hearing.

Wetuski closed the public hearing as no members of the public came forward.

- iv. **Recommendation:** Gahan moved, seconded by Malmquist to recommend approval of the Conditional Use Permit, contingent on the finalization of the design review process, as the CUP request is consistent with the Comprehensive Plan and the Zoning Ordinance. **Ayes: Gahan, Wetuski, Krzywicki, Frey, Dale, and Malmquist.**
Nays: None. Abstain: None. Absent: Coughlan, Sargus, Alexander, and Circo.
Motion Carried, (6-0)

B. Comprehensive Plan Amendment: Future Land Use Map – West Management, LLC – Lot 3 Echo Hills

- i. **Staff Report - Chris Solberg:** Solberg stated that the applicant, West Management, LLC, is requesting an amendment to the Future Land Use Map of the Comprehensive Plan for Echo Hills Lot 3, located generally northwest of the intersection of Chandler Road and 144th Street. The overall application includes the approval of an amendment to the Future Land Use Map of the Comprehensive Plan, Rezoning, PUD Site Plan, and a Preliminary Plat. Solberg stated that the intention for the space is for the development of an assisted living facility, memory care facility, multi-family housing, a restaurant, retail space, and drive-thru coffee shop. Staff recommends approval of the Comprehensive Plan Amendment, contingent on the satisfactory resolution of the issues stated within this staff report prior to City Council approval.
- ii. **Applicant Presentation:** Brett West came up and spoke on behalf of the applicant. He said that he has several partners in this project and they have been working on this project for a little while to find a good use for this location. He stated that they

have been working with the current land owner and have it under contract and that that what they are wanting to do is very similar to a project they did in Lincoln.

West then showed renderings to the commission and public of what their plans were for the site. The assisted living quarters would include 60 units of assisted living and 20 units of memory care. He said that the site is obviously larger than what they are needing for that, so as a development professional, him and his partners also thought this site would be good for an apartment complex as well. He then showed where the apartments and commercial building would be going as well.

He said that they have met with the DOT about the opportunity to access this site on 144th and/or Chandler Road and at this point, neither of those were options they could look at. He mentioned that there have been concerns about that, but they have met with the DOT. West mentioned that they did have a traffic study done, and largely the roads take the requirements that this would add to it from a traffic stand point. They will have to do some improvements on Chandler Rd. and are more than willing to do that.

iii. Public Hearing: Wetuski opened the public hearing.

Nicole Saathoff came up and spoke about the project. She said that her main concern is the increase in traffic that will be happening at 146th and Echo Hills Dr. She said that it is already a very busy intersection and people blow through the stop sign. She is concerned about what kind of traffic the apartment complex will bring in and is also concerned about the safety of the children that would be going to the park in that area.

Kathy Seymour came up and spoke about the project. She said that she agreed about the concerns of the increased traffic. She doesn't feel that the streets in the neighborhood will support the traffic. She mentioned that there has been a desire for a traffic light at 144th and Echo Hills Drive for years and feel that it is necessary due to the increased traffic. She stated that she is opposed to the new development coming in.

Robert Seymour came up and spoke about the project. He said that one of his concerns is how narrow the street is from Highway 50 going west on Echo Hills. He said that they already allow parking on one side, which people continually violate by parking on both sides of the street, which makes it very difficult to get through. He feels that there should not be any parking allowed on the street if this development were to happen and feels that there needs to be a light at Highway 50 and Echo Hills. Mr. Seymour then stated that he would like to see the light on Chandler Rd. stay,

but to see Chandler widened since it's also one of the proposed entrances for this site.

Jeremy Saathoff came up and spoke about the project. He said that he feels that traffic will increase and that as a SID they will be liable for repairs on the road. He mentioned that they are going to be an estimated 3100 cars daily driving through their streets now and wanted to know who is going to pay for street repairs. He then brought up that in the summer, spring, early fall, they get cars backed up from the park to his house. He brought up the traffic study and said that he didn't see anywhere that a study was done on 146th and Echo Hills Dr., which is the busiest intersection in that neighborhood.

Andre Steinbergs came up and spoke about the project. He said that he lives directly across that open field and that it has been kind of ideal having that there because they can see across and have privacy. He said that his main concern is privacy and accessibility. He is also concerned about traffic increase and people parking on both sides of the street. Steinbergs brought up that he is also concerned about what he will see when he looks out his front window. He is wanting to know if there is going to be some type of a fence or barrier or will he be looking at buildings and apartments. He also brought up the danger of the intersection at 144th and Echo Hills Dr.

John Warren came up and spoke about the project. He is also concerned about the accessibility, safety and increase in traffic. He mentioned that since they are a SID, they pay for the maintenance of the roads, the park and the mowing and asked who is going to pay for everything if this development comes in. He then asked if the county or the city will be plowing the streets.

Solberg said that since they are still a SID, they contract that [the plowing of the streets] out.

Warren asked if the meeting tonight was for approval to rezone this and asked how it's zoned now.

Solberg said that it is currently zoned C-1.

Warren asked if C-1 would allow this development to take place.

Solberg said that C-1 would allow for the commercial development that's being proposed. He said that we are here tonight to vote on the rezoning of the property.

Warren brought up that this lot has been vacant for over 30 years because of the price tag attached to it and because it's zoned commercial. It's not zoned for what the developer wants to do.

Bob Ireland came up and spoke about the project. He said that he is pleased to see interest in the property and said that from the looks of the renderings, they are beautiful buildings and that he appreciates that effort that has gone into doing the research for this project. He said that one of the interests that he had is in the safety of the kids with the increased traffic, especially by the park. He said that 146th is only designed for two-way traffic with no on-street parking, so trying to mitigate how that traffic flow will work, especially with the C-1 property, is a concern. He said that he is all for the coffee shop and having a restaurant but having it right in front of a park with a high amount of traffic flow that already exists and bringing in more needs to be taken into consideration. He mentioned that he wasn't there at the SID meeting and was unable to ask questions. Ireland brought up the tax incentives and property value that is being invested into this and asked if that will be invested back into the SID to help pay for some of the road repairs and other things.

West came back up to address the concerns and comments that were made by the public. He said that they did not make any suggested changes at this time. They requested some feedback from the SID because they understand the traffic issue. They had a traffic study done by a third party and what it suggested was to add a lighted left turn at the 144th and Chandler and stated that they agree with that. He said that it is a SID, so to clarify, this property would pay into the SID and would help cover any expenses related to that [road repairs]. He said that they did meet with the state and asked a lot of questions about access and unfortunately, that's the direction that they were given. They were "flat out" told "no" about creating an access off 144th St. and would have to purchase land from the DOT to be able to create an access off Chandler Rd. West said that they are there to be good neighbors. He then brought up the fact that the entire property is currently zoned C-1, so anything on a large-scale commercial side could go in there. They are downsizing the commercial from what could potentially go in there, which would have more of an impact on the traffic.

Malmquist asked if there had been any conversation with the DOT on a traffic signal at Echo Hills Dr.

West said yes and that the DOT is not in support of that because it's too close to their other light at 144th and Chandler.

Gahan verified that there is on-street parking on Echo Hills Dr. and 146th St.

West said there is.

Gahan asked if that was something that the city could address and make it so there is no parking on the street.

Solberg said that could be done through the SID's administrative actions.

Gahan verified that the SID could control that.

Solberg said yes.

Dale brought up the 4200 square feet of office/ retail space and asked if that is above where the pad for the restaurant would be.

West pointed out where the office/retail would be and the pointed out the restaurant. He said that no tenants have been confirmed since it's so early in the project, but the restaurant would more than likely be a sit-down establishment.

Krzywicki brought up the traffic control comparisons between C-1 and apartments trips per day and asked how long it took the apartments to reach the same amount of traffic in a day as C-1. He wanted to know which one was better from a traffic standpoint.

Solberg said that typically commercial has more traffic, however, apartments have more traffic during peak times.

Dowse said that along those lines, it really depends on what your use is. He did confirm that generally, commercial will have more traffic.

Wetuski closed the public hearing.

Krzywicki stated that one of the primary things that he heard is the traffic and the safety issue and that it's unfortunate that hands are tied with the state for improvements for traffic flow, safety, signalization, etc. He said that he hopes the developer will continue to work with whoever controls the intersections and that improvements can be made if the project continues to move forward.

Solberg reminded the planning commission that there are four different agenda items related to this.

- iv. Recommendation:** Malmquist moved, seconded by Dale for approval of the Comprehensive Plan Amendment contingent on the satisfactory resolution of the

issues stated within this staff report prior to City Council approval. **Ayes: Gahan, Wetuski, Krzywicki, Frey, Dale, and Malmquist. Nays: None. Abstain: None. Absent: Coughlan, Sargus, Alexander, and Circo. Motion Carried, (6-0)**

**Zoning Ordinance Amendment—Sections 2.03,
2.08, 2.20, 5.05, 5.10-5.16, 5.19, and 7.15 (Solar
Energy Conversion Systems)**

Memorandum

To: Planning Commission

From: Cale Brodersen, Assistant Planner

Date: 1/8/2020

Re: Public Hearing regarding text amendments to the Zoning Ordinance – Sections 2.03, 2.08, 2.20, 5.05, 5.10-5.16, 5.19, and 7.15 (Solar Energy Conversion Systems)

Staff recently received an inquiry from a La Vista resident and business owner as to why solar panels are only allowed within residential districts in La Vista. The section in the La Vista Zoning Ordinance that addresses solar panels has not been updated since 2001. Technological improvements have drastically altered the cost, availability, efficiency, and aesthetics of photovoltaic cells since 2001, but the Zoning Ordinance has not been updated to reflect these changes.

The proposed changes to the Zoning Ordinance provide for updated regulations and conditions for the installation and use of Solar Energy Conversion Systems (solar panels) and permit their use as an accessory or conditional use in all of La Vista's Zoning Districts to varying degrees. The proposed changes to the Zoning Ordinance consider La Vista's long-held principle of design excellence while directly supporting the La Vista Comprehensive Plan Goal Prosper-1: "Promote environmental sustainability through clean sources of energy, and through conservation of energy and natural resources."

A redline copy of the proposed amendments is attached.

STAFF RECOMMENDATION:

Section 7.15 Solar ~~Panels~~Energy Conversion Systems

~~No solar panel shall be constructed within the residential zoning jurisdiction of the City of La Vista unless a permit therefore is approved and issued by the building inspector and is constructed in conformance with the following requirements. For those devices that include electrical, plumbing and heating constructions, the applicable permits shall also be obtained. Solar panels shall meet the following requirements.~~

~~7.15.01 Lot and Height Requirements: Solar panels shall conform to the required front, side and rear lot setback requirements except as provided herein:~~

~~7.15.01.01 — A solar panel which is attached to an integral part of the principal building may project two feet (2') into the front yard; six feet (6') into the rear yard; and two feet (2') into the side yard.~~

~~7.15.01.02 — A solar panel which is freestanding may be located only in the required rear yard provided it does not exceed six feet (6') in height and is located not less than five feet (5') from the rear lot line and not closer than one foot (1') to any existing easement as measured from the closest point of the structure including its foundation and anchorage's, nor shall the solar panel be located in the required side yard or front yard.~~

~~7.15.02 Structural Requirements: The physical structure and connections to existing structures shall conform to the applicable La Vista building codes.~~

~~7.15.03 Plot Plan: The application for a permit shall be accompanied by a plot plan drawn to scale showing property lines, existing structures on the lot, proposed solar panel location with respect to property lines, and dimensions of the proposed solar panel.~~

~~7.15.04 Permit Fee: A permit fee is required. This permit fee shall be paid prior to the issuance of the building permit. The amount of the fee shall be as established in the Master Fee Schedule.~~

~~7.15.05 Preexisting Solar Panels: Notwithstanding noncompliance with the requirements of this section, a solar panel erected prior to September 18, 1985, pursuant to a valid building permit issued by the City, may continue to be utilized so long as it is maintained in operational condition.~~

Solar Energy Conversion Systems (SECS) are permitted in all zoning districts as an accessory use to any lawfully permitted principal use on the same lot upon issuance of the proper permit and upon compliance with all requirements of this section and as elsewhere specified in this Ordinance. Building-integrated solar energy systems, as defined in this Ordinance, are not considered an accessory use and are not subject to the requirements of this Section.

7.15.01 Height and Lot Requirements: Solar Energy Conversion Systems (SECS) shall conform to the required height and lot requirements provide herein:

7.15.01.01 — Building-Mounted SECS that are attached to a building on a lot shall comply with the height, front, side, rear yard, and max. building coverage requirements of the building to which they are attached, except as otherwise allowed in Section 7.15.01.04.

7.15.01.02 — For a Building-Mounted SECS installed on a sloped roof that faces the front yard of a lot, the system must be installed at the same angle as the roof on which it is installed with a maximum distance, measured perpendicular to the roof, of eighteen (18) inches between the roof and highest edge or surface of the system.

7.15.01.03 — For a Building-Mounted SECS installed on a sloped roof, the highest point of the system shall not exceed the highest point of the roof to which it is attached.

7.15.01.04 For a Building-Mounted SECS installed on a flat roof, the highest point of the system shall be permitted to extend up to six (6) feet above the roof to which it is attached, and the system shall not extend horizontally past the roof line.

7.15.01.05 Ground-Mounted SECS may be located only in the required rear yard as Permitted Accessory Uses. Ground-Mounted SECS may be located outside of the rear yard, but behind the front building line, with an approved Conditional Use Permit.

7.15.01.06 Ground-Mounted SECS shall conform to the height and lot requirements for Accessory Buildings in the zoning district in which the system is to be constructed, except that the system may not exceed 12-feet in height.

7.15.01.06 Ground-Mounted SECS shall only be permitted in the following districts, subject to the requirements in this Ordinance: TA, R-1, R-2, R-3, R-4, I-1, I-2, and R-M.

7.15.02 Structural Requirements: The physical structure and connections to existing structures shall conform to the applicable City of La Vista Building Codes.

7.15.03 Permit Requirements: Before any construction or installation on any SECS system shall commence, a permit issued by the Building Department of the City of La Vista shall be obtained to document compliance with this Ordinance.

7.15.03.01 A permit fee shall be required, and the amount shall be established in the Master Fee Schedule.

7.15.03.02 The application for a permit shall be accompanied by a plot plan drawn to scale showing property lines, existing structures on the lot, proposed solar panel location with respect to property lines, and dimensions of the proposed solar panel.

7.15.04 Inspection, Safety, Abandonment, and Removal: The Building Inspector and Fire Marshall reserve the right to inspect a SECS for building or fire code compliance and safety. If upon inspection the Building Inspector or Fire Marshall determine that a fire code or building code violation exists, that the system has been abandoned, or that the system otherwise poses a safety hazard to persons or property, the Building Inspector or Fire Marshall may order the owner to repair or remove the system within a reasonable time. Such an order shall be in writing, shall offer the option to repair, shall specify the code violation or safety hazard found and shall notify the owner of his or her right to appeal such determination. If the owner fails to repair or remove a SECS as ordered, and any appeal rights have been exhausted, an employee or independent contractor with the City of La Vista may enter the property, remove the system and charge the owner for all costs and expenses of removal, including reasonable attorney's fees or pursue other legal action to have the system removed at the owner's expense. In addition to any other available remedies, any unpaid costs resulting from the City of La Vista's removal of a vacated abandoned or de-commissioned SECS shall constitute a lien upon the property against which the costs were charged. Legal counsel of the City of La Vista shall institute appropriate action for the recovery of such cost, plus attorney's fees. A SECS shall be deemed abandoned or defective by the City of La Vista if it is out of use for a period of 12 months or more, at which time the property owner shall have six months to return the system back to service, or complete decommissioning of the SECS. Decommissioning includes the removal of the SECS, all associated equipment, footings and foundation system, and wiring. Upon removal, such property shall be returned to the same conditions that existed before the installation of the system.

7.15.05 Preexisting SECS: Section 7.15 of this Ordinance applies to Solar Energy Conversion Systems (SECS) installed and constructed after December 17, 2019. Any upgrade, modification or structural change that materially alters the size or placement of an existing SECS system shall comply with the provisions of this Ordinance.

7.15.06 Signage and/or Graphic Content: No signage or graphic content may be displayed on the solar PV system except the manufacturer's badge, safety information and equipment specification information. Said information shall be depicted within an area no more than thirty-six (36) square inches in size.

7.15.07 Screening and Visibility: Placement of SECS shall be prioritized in such a way that will minimize or negate any solar glare onto nearby properties and roadways. SECS are subject to the following:

- 7.15.07.01 All SECS using a reflector to enhance solar production must minimize glare from the reflector that affects adjacent or nearby properties. Measures to minimize nuisance glare include selective placement of the system, screening on the north and south sides of the SECS, modifying the orientation of the system, reducing use of the solar reflector system, or other remedies that limit glare.
- 7.15.07.02 All SECS appurtenances, including, but not limited to, plumbing, water tanks and support equipment, shall be of a color that is complementary to the site location, and shall be screened to the extent reasonably feasible without compromising the effectiveness of the solar collectors. SECS shall comply with any applicable Design Guidelines of the appropriate district.
- 7.15.07.03 Building-mounted systems mounted on a flat roof shall require screening as to not be visible from elevation-perspective view. This can be accomplished with architectural screening such as a building parapet or by setting the system back from the roof edge in such a manner that the solar PV system is not visible from the public right-of-way.

AGENDA ITEM 4B

**Zoning Ordinance Amendment—Sections 7.01 and
7.03 (Signs)**

Memorandum

To: Planning Commission

From: Cale Brodersen, Assistant Planner

Date: 1/8/2020

Re: Public Hearing regarding text amendments to the Zoning Ordinance – Sections 7.01 and 7.03 (Signs)

Staff have recently received several inquiries regarding the use of currently prohibited sign types. One is the use of electronic message boards for schools and event centers, land uses in which the communication of dates and times for specific events and closings is important to their operation. The La Vista Zoning Ordinance does not currently allow for the use of electronic message boards on Ground Monument Signs or Wall Signs under any circumstances. The proposed changes to the Zoning Ordinance provide for the ability of schools and event centers to use electronic message boards as part of Ground Monument and Wall signs.

Another currently prohibited sign type is the blade sign, a sign that typically projects from a wall, column, or pole with two identical sign faces. Blade signs are particularly common and effective in areas with heavy foot traffic. The proposed changes to the Zoning Ordinance would allow for the use of blade signs on multi-story buildings only within the Mixed-Use-City Centre Zoning District.

The proposed changes to the Zoning Ordinance would also provide for the ability to place roof signs that advertise an entire district or development, rather than for the specific building on which it is placed. Roof signs can be helpful in creating a cohesive identity and sense-of-place for a development/district, and these changes would permit for their use only within the Mixed Use-City Centre Zoning District where the sign type matches the overall design style of the district.

A redline copy of the proposed amendments is attached.

STAFF RECOMMENDATION:

Staff recommends approval of the proposed amendments.

ARTICLE 7: SUPPLEMENTAL REGULATIONS

Section 7.01 Sign Regulations

7.01.01 Purpose

The purpose of these sign regulations are: to encourage the effective use of signs as a means of communication in the city; to maintain and enhance the aesthetic environment and the city's ability to attract sources of economic development and growth; to improve pedestrian and traffic safety; to minimize the possible adverse effect of signs on nearby public and private property; and to enable the fair and consistent enforcement of these sign regulations. These sign regulations are adopted under the zoning authority of the city in furtherance of the more general purposes set forth in the zoning ordinance.

7.01.02 Applicability

A sign may be erected, placed, established, painted, created, or maintained within the city and the city's extraterritorial zoning jurisdiction only in conformance with the standards, procedures, exemptions and other requirements of these sign regulations.

7.01.03 Definitions and Interpretation

Words and phrases used in this ordinance shall have the meanings set forth in Section 2. Principles for computing sign area and sign height are contained in Section 7.01.04.

7.01.04 Computations

1. *Computation of Area of Individual Signs*

The area of a sign face (which is also the sign area of a wall sign or other sign with only one face) shall be computed by means of the smallest square, circle, rectangle, triangle, or combination thereof that will encompass the extreme limits of the writing as a whole, representation, emblem, or other display as a whole, together with any material or color forming an integral part of the background of the display or used to differentiate the sign from the backdrop or structure against which it is placed, but not including any supporting framework, bracing, or decorative fence or wall when such fence or wall otherwise meets zoning ordinance regulations and is clearly identical to the display itself.

2. *Computation of Area of Multi-faced Signs*

The sign area for a sign with more than one face shall be computed by adding together the area of all sign faces visible from any one point. When two identical sign faces are placed back to back, so that both faces cannot be viewed from any point at the same time, and when such sign faces are part of the same sign structure and are not more than forty-two (42) inches apart, the sign area shall be computed by the measurement of one of the faces.

3. *Computation of Height*

The height of a sign shall be computed as the distance from the grade at the base of the sign, or from the grade immediately below the sign in the case of Wall Signs, at normal grade to the top of the highest attached component of the sign. Normal grade shall be construed to be from finished grade. Any berms shall be construed to be a part of the sign base and added to the overall height of the sign.

7.01.05 Permitted Signs and Limitations

1. **Ground Monument**

- A. Monument signs shall be located along the frontage of the zoned lot. All signs shall be of permanent construction and are subject to the provisions of local codes and ordinances. On corner lots, the monument sign may be placed on either frontage.
- B. All ground monument signs shall be located on the same lot as the advertised use.
- C. Signs shall contain only the name or trademark of the business, building or complex which it identifies.
- D. With the exception of change panels permitted for gas stations to advertise gasoline prices, no change panels, advertising or names of individual tenants will be allowed.
- E. Setbacks for all ground monument signs are ten (10) feet, no setbacks are required in the MU-CC District.

~~E.F.~~ Electronic message boards shall only be allowed as part of a Ground Monument sign, provided they are for schools or event centers, subject to the conditions in Section 7.01.05.2(H).

~~F.G.~~ The following criteria apply to Ground Monument signs:

6. ***Project Directory Signs (Ordinance No. 1145, 5-17-2011)***
In order to maintain the flow of traffic on arterial and collector roads and to promote vehicular safety, emphasis is made to limit the number of ingress and egress points off of such roads. Project directory signs are intended to direct attention to planned multi-tenant developments which are not easily accessible off of such roads and where on-premise signage for that development (or any tenants within the development) would not otherwise be visible by the motorists traveling on nearby arterial or collector roads at the closest point of access. Provisions are provided to allow project directory signs which identify the name of the particular development and/or the names of their tenants. Such signs would be supplemental to signage otherwise provided for such developments.

Directional signs may be erected under the following conditions:

- A. Access to the development is restricted. Full ingress and egress to the development off an arterial or collector road is limited by access constraints or non-existent.*
- B. Such signs may be placed on or off-premises. All such signs shall be constructed and located, however, so as to be visible by the motorist traveling on the arterial or collector road which intersects with the local road providing access to the development.*
- C. Setbacks for all Project Directory Signs shall be twenty (20) feet along a street designated as an arterial or collector and ten (10) feet along any street designated as a local, minor or private street.*
- D. A maximum of two project directory signs per development shall be allowed. No two signs shall be allowed closer than five-hundred (500) feet to each other on the same side of the street, measured along the edge of the street.*
- E. No such sign shall be allowed further than one-thousand (1,000) feet from any entity advertising on the sign using the closest straight line measurement.*
- F. The minimum distance between a sign location and any residential zoning district shall be 50 feet.*
- G. The sign may contain the name of the development, names of tenants within the development, directional arrows and distance information. If off-premises, sign shall identify multiple businesses or industries.*
- H. The size of each sign shall be a function of the number of tenants within the development. Each eight (8) square feet per principal use within the development, whichever is greater, with a maximum area of eighty (80) square feet.*
- I. All such signs shall be a ground-mounted, monument-style sign.*
- J. Such signs shall be subject to the design standards of the PUD or Gateway Corridor Overlay District, if within such district.*
