# Budget Summary

## Introduction

This is the midpoint of the FY25-26 Biennial Budget adopted by the City Council on September 3, 2024. The purpose of the mid-biennial budget update is to review existing conditions, refine revenue and expenditure estimates, adjust timing and cost associated with the construction updates, ensure that the fiscal decisions made in FY25 are reflected in FY26 and to ultimately determine if budget amendments are necessary. In preparation for this update, department managers identify needs or conditions that may necessitate budget adjustments or modifications. The Executive Budget team then reviews these requests to determine if it necessitates an amendment to the original budget, or if they can be absorbed through the existing budget. The FY25 review suggests that no amendments are needed. The FY26 budget requires amendments associated with unexpected expenses, personnel changes and construction project carryovers, which are detailed in this document.

## Summary

In preparation of the mid-biennial budget review, there are certain considerations that affect multiple funds and the budget as a whole, such as the property tax levy. This mid-biennial review will address these overarching items and the process that brought forth the adopted FY26 amendments.

### Property Tax Levy

The City's assessed valuation is the basis for the property tax calculation. The FY25-FY26 Biennial Budget was calculated on an assessed valuation of \$2.4 billion. The state requires cities filing a two-year budget to hold the property tax revenue for the second year at the same amount as the first year. As a result, it is necessary to review and update property tax for year two.

The Sarpy County Assessor's office provided preliminary valuations for FY26 which indicate a 4.9% growth in total assessed valuation, rising up to \$2.5 billion. This equates to \$253K for each cent of property tax levy. La Vista's current property tax levy rate is \$.54 per \$100 of assessed value which will generate \$13,645,071. The General Fund levy of \$.50 will result in \$12.6M, and a Debt Service levy of \$.04 will result in \$1M.

In August 2024, the Nebraska Legislature passed a property tax growth limitation bill that limits the City's growth in property tax request to the prior year ask (less any exceptions utilized) + the product of the prior year ask and the city's growth percentage + the product of the prior year ask and the greater of zero or the inflation percentage. The inflation rate is the annual percentage change in State and Local Consumption Expenditures and Gross Investment (SLCE) as reported for the December of the prior calendar year for the preceding twelve-month period.

The City's FY25 property tax ask was \$12,988,979. The City's growth percentage is estimated at 0.99%, and the SLCE is 5.17%. For FY26, the City's property tax authority is \$13,783,304. However, the current levy is \$.54 per \$100 of assessed value which will generate \$13,645,071 of property tax revenue. This will leave the City with \$138,233 of unused property tax authority. In FY26, the state is allowing cities to convert their FY25 unused restricted funds authority (up to 5% of last years property tax ask) to property tax authority in FY26. This amount for the City of La Vista is \$649,449. The total unused property tax authority for the City for FY26 will be \$787,682, and this will be carried into next year.

The table on the next page provides a recent summary of the City's valuation growth. A more detailed explanation of the overall growth and personal property tax implications will be reviewed as part of the upcoming long-range financial forecast process.

# Budget Summary

## Real Estate Historical Change in Property Tax

Fiscal Year	Real Estate Valuation	% Change from Prior Year	Valuation Attributable to Growth	Personal Property Valuation	% change from Prior Year	Annexation	Total Assessed Value	Total % Change from Prior Year
FY26	2,345,019,071	4.89 %		181,845,873	7.84 %		2,526,864,944	5.10 %
FY25	2,235,711,195	5.36 %	23,754,318	168,630,759	3.51 %	—	2,404,341,954	5.23 %
FY24	2,121,985,486	11.98 %	29,246,401	162,907,606	(49.98)%	—	2,284,893,092	2.90 %
FY23	1,894,901,945	7.11 %	113,056,111	325,654,998	42.21 %	0	2,220,556,943	11.14 %
FY22	1,769,068,039	5.43 %	28,370,623	228,989,966	196.91 %	34,715,846	1,998,058,005	13.84 %

## Sales and Use Tax

Sales and use taxes account for approximately 28.0% of the City's revenue. The local option sales tax rate of 2% is allocated 1% to the General Fund, .5% to the Debt Service Fund and .5% to the Redevelopment Fund. The General Fund is a foundation rate with no sunset date. The half-cent Debt Service sales tax was reauthorized by the voters in November 2022 and has a 30-year sunset (2055). The other half-cent for the Redevelopment Fund remains in effect until the debt is paid.

Sales tax growth from FY20-FY24 saw an average of 6% increase year-over-year. The FY25 budget was based on a 3.2% increase from FY24. Based on current projections, gross sales tax revenue is expected to come in 12.0% over budget for FY25. This includes a \$900K refund to the City for prior year use tax, adjusting out this amount leaves a 5.6% increase over budget. Using historical data, the City is recommending increasing FY26 sales tax budget by an additional 6.0%, this would be a conservative increase of 3.5% over the adjusted FY25 actual.

The City continues to maintain a sales tax credit reserve balance of \$1.5M in anticipation of tax refunds related to State of Nebraska economic development incentives which allows qualified businesses to earn and use tax benefits based on investment and employment growth. In FY20-FY24, the refund has averaged \$1.4M each year. The FY25 refund is \$42K, and FY26 is projected at \$205K, which is included in the \$1.5M budgeted rebate.

## Internal Services Fund

In FY25, the City made the decision to move to self-funded health insurance. The goal of this change was to be able to keep premiums from increasing by the historical rate that the City has seen and to have more flexibility with our health benefits. In order to accommodate this change, the City added an Internal Services Fund as a holding and pass through fund. Both the employee and employer premiums are transferred into this fund each month, and the fees and claims are paid out of this fund. This fund is budgeted to have a zero balance at the end of each fiscal year. In FY25, funds needed to be established to begin funding claims. The City had \$908K of Health Reimbursement Arrangement (HRA) funds on reserve for the start-up of self-insurance. In FY25, \$367K of that will be transferred to the Internal Services Fund to cover claims. Any excess funds at the end of the fiscal year will be transferred back into the General Fund. We are not anticipating any excess funds in FY25 or FY26 as we will still be in the start-up phase.

# Budget Summary

## All Fund Revenue

In an overview of all City funds, the FY25 revenue is forecasted to be \$6M less than the original budget. The FY25 budget had an issuance of a \$7M bond along with \$3.5M in expected grants to cover redevelopment projects over the next two years. Following a review and update of the Capital Improvement Plan (CIP), it was determined that the bond money would not be needed until FY26, and the grant money would not be used until FY26. Both of those revenues were moved into FY26. This reduction impacts FY25 revenue by \$11M. This is offset by increases in sales tax revenue of \$2.8M and restaurant tax of \$300K in the General Fund and the additional \$1.6M in premiums to the Internal Services Fund.

The FY26 revenue is expected to increase by \$14.7M, based primarily on the bond and grant from redevelopment of \$11M, moving into FY26. Increases of \$2M in the General Fund revenue are a result of anticipated increases in property tax, sales tax, occupation tax and potential grant opportunities, as well as the increase in the Internal Services Fund of \$2.3M from transfer of premiums.

### All Funds Summary - Revenue

# Budget Summary

## All Funds Expenditures

The all funds expenditures in FY25 are expected to be \$3.2M under budget. The majority of the savings (\$4.9M) is in capital projects that will carryover into FY26. These savings along with the additional \$1.6M in health insurance claims in the Internal Services Fund make up the total decrease in FY25.

FY26 proposed amendments total an increase of \$10.5M. Carryover for capital projects of \$4.9M, additional capital projects of \$1.5M, an increase in personnel services of \$896K and an increase for insurance claims in the Internal Services Fund of \$2.6M constitute the majority of the increases. A more detailed look at these expenditures will be found in the fund summaries.

## All Funds Summary - Expenditures

# Budget Summary

## All Funds Summary - Fund Balances

### FY25

The consolidated fund balances for FY25 all funds is expected to decrease by \$1.2M from the original budget. Revenue projections decreased by \$6M. The bond proceeds of \$7M and grant proceeds of \$3.5M that were anticipated were moved into FY26. This decrease is offset by the increase in revenue in the Internal Services Fund of \$1.6M and increases in the General Fund of \$1.6M. Expenditures are projected to come in \$3.7M under budget, resulting from a \$4.9M carryover in capital projects from FY25 into FY26. This is offset by the increase in insurance claims in the Internal Services Fund of \$2M. The net of these changes is a decrease in fund balance of \$2.3M. Because the FY24 actual fund balance is \$1.1K higher than the FY24 YEE, this combined with the YEE from FY25 results in the net decrease to the all fund balances.

### FY25 Fund Balance Changes

Fund	FY24	FY25	FY25	FY25	FY25	FY25
	Year End Actual	Original Budget	Budget Adj for FY24 Actuals	Changes Rev	Changes Exp	YEE

# Budget Summary

## FY 26

The ending fund balances for all funds combined in FY26 is projected to increase by \$3.4M. The proposed FY26 amendments are increasing the fund balance by \$4.6M. This combined with the \$1.2M decrease in FY25 explain the net increase for FY26. The FY26 amended fund balances are a combination of capital projects carried over from FY25 of \$4.9M, additional projects of \$1.5M, expenditure increases of \$3.7M and revenue increases of \$14.7M. A more detailed look at these revenue and expenditures will be found in the fund summaries.

### FY26 Fund Balance Changes

# Budget Summary

## City Indebtedness

Debt service expenditures appear in the following funds:

- **Debt Service Fund** for payment of principal and interest on long-term debt associated with capital projects or cash funding certain capital projects.
- **Economic Development Fund** to provide financial assistance to qualifying businesses.
- **Redevelopment Fund** regarding the redevelopment of the 84th Street Corridor.

Overall, the City has strategically issued debt over the past years to maintain a favorable bond rating and continues to plan to maintain healthy ratios and the Aa2 bond rating for the adopted years. The following charts represent the current indebtedness of the City beginning in FY25.

# Budget Summary

**INTENTIONALLY LEFT BLANK**

## Overview

The General Fund is the primary operating fund of the City. It is used to account for all revenues and expenditures not included in other designated funds. It provides for a broad spectrum of programs and critical services such as police, fire, parks and recreation, public works and administrative services. The General Fund is primarily supported by property tax, sales and use tax, occupation taxes, franchise fees, and license and permit fees.

The financial strength of the General Fund is significant and receives considerable focus and review during the budget process because of the implications that it has on the City's overall property tax levy, bond rating, operating cash flows and ability to handle contingencies.

## Revenue

The General Fund's primary sources of revenue are property tax, sales tax, restaurant tax, hotel tax and gross revenue tax (other occupation taxes & franchise fees). Property tax and sales tax account for approximately 71% of the General Fund revenue. The General Fund revenue detail can be found in the General Fund - Revenue table on page 10.

### Property Tax

#### FY25

The FY25 YEE for property tax is anticipated to be less than budgeted by approximately 2.3% which is related to a prior year property valuation adjustment resulting in a credit of \$291K in property tax back to the property owner.

#### FY26

The City's FY26 projected property tax authority for the General Fund based on new state legislation is \$13.8M. However, based on the City's preliminary valuation and .50 levy the property tax ask is projected at \$12.6M.

### Sales And Use Taxes

#### FY25

The City's sales and use tax remains strong and is expected to continue to increase with The Astro Theater and Amphitheater (The Astro Theater) completing their first full year of operation and anticipated growth in City Centre and the Southport area. A 3.2% increase in sales tax was budgeted in FY25, however based on current projections, net sales tax revenue is expected to come in 23.4% over budget. Of this amount, 12% is related to increased sales and use taxes with 6% coming from a state audit of prior year consumer use tax that resulted in a \$900K refund back to the City. The balance of the increase over budget is related to a difference between budgeted tax credits of \$750K and estimated credits of \$130K.

#### FY26

An analysis of current sales and use tax collections show a five year average increase of 6% year-over-year. This analysis pulled out the \$900K adjustment in FY25. Based on this data, along with the adjusted increase in FY25 over FY24, we are proposing an FY26 increase of 6% over current budget. This would equate to an 3.5% increase over the adjusted FY25 actual.

### Restaurant & Drinking Places Occupation Tax

On September 3, 2019, the City Council adopted a Restaurant & Drinking Places Occupation Tax (Restaurant Tax) of 1.5% that went into effect on October 1, 2019. The purpose of the tax was to help ensure the City's continued fiscal strength and address financial challenges resulting from rapid growth along with sharing the burden equally with non-residents. The Ordinance provided for a rate review two years following the effective date.

# General Fund

During this review it was determined that the City was collecting more than the statutory \$700K cap. In order to adjust for this, the City lowered the tax to 1% on March 1, 2023. On June 2, 2025, the State lifted the cap on this tax allowing the City to increase the revenue collected as the restaurant sales in the city increase. As a result of this change, we are proposing an increase to the FY26 budget of \$331K. This increase is based on historical increases in the restaurant sales in the City of La Vista and would hold the rate at the current 1%.

## Parking Garage Fees

In FY24, the City completed work on the second parking garage in City Centre. In FY25, we saw a 72% increase in revenue for parking garage fees related to the second garage coming on-line and the increase in shows at The Astro Theater. Based on new leases for the garage as well as the number of events at The Astro Theater, the parking rates for the events and assuming an average of 75% capacity, we are proposing an increase in parking fees revenue of \$145K over the adopted FY26 budget. This would relate to a 20% increase over FY25 estimates.

## GENERAL FUND - REVENUE

Revenue	FY24	FY25	FY25	FY26	FY26	FY26

## Expenditures

### FY26 Amendments

The proposed amendments for FY26 result from unforeseen costs to personnel, contracts, commodities, maintenance or other charges. Department justifications follow. The specific amendments can also be found in the Appendix under the respective department.

### Personnel

#### Annual Pay for Performance

The FY26 Budget included a 3.75% average increase for civilian personnel and an 8% increase for Fraternal Order of Police (FOP). The actual pay for performance average increase was 4% resulting in a \$25K increase to FY26 budget.

#### Insurance Premiums

Insurance Premiums are estimated to increase 10% for FY26. We will not get the actual numbers from our insurance advisors until late August. We budget full family for all open positions and a 10% increase over FY25 estimates which results in an increase of \$236K. We will adjust this as the numbers become available.

#### Police

In FY25, the FOP salaries were adjusted for open positions. In FY26, all positions are projected to be filled by the beginning of the fiscal year. As a result, there is an increase of 5% in the Police budget over what was in the adopted FY26 budget. This is an increase of \$356K, including salaries, taxes and retirement.

In FY26, the Police are proposing a change in title of one of the Police Captain positions to Deputy Police Chief. This change would aid the department in creating a succession plan as well as establish a point of contact in the absence of the Chief. This would not add a position or a body to the staff, so the dollar impact to the budget would be approximately \$10K.

#### Public Works

In FY25, the salaries were adjusted for open positions. In FY26, all positions are projected to be filled by the beginning of the fiscal year. As a result there is an increase of 4% in the Public Works budget over what was in the adopted FY26 budget. This is an increase of \$54K including salaries, taxes and retiree payout.

#### Finance

For FY26, the Finance Department proposes the creation of a Grant Writer/Purchasing Manager position. This role would significantly enhance the City's ability to secure external funding and optimize procurement processes.

The Grant Writer component of this position would be responsible for researching, identifying, applying for, and meticulously tracking grants that align with the City's mission and ongoing projects. Currently, the City would expend an estimated \$8,000 to \$15,000 per grant application through Simple Grants, with costs varying based on complexity, time invested in application, and tracking. It's important to note that some grants offer reimbursement for application and tracking expenses. The strategic aim for this position is to become self-sustaining through a projected increase in successful grant awards.

The Purchasing Manager aspect of the role would oversee the issuance and tracking of all Requests for Proposals (RFPs) for the City. This individual would ensure strict adherence to the City's purchasing policies and all relevant state statutes. Furthermore, the Purchasing Manager would actively seek out cooperative purchasing opportunities to achieve cost reductions for the City.

#### Retiree Payout

The City has several employees at or above retirement age. In anticipation of potential retiree payouts in FY26, the City is proposing an increase of \$100K to the personnel budget.

# General Fund

## Contractual Services

### The Link

As we have completed the first full year of operation at the Link, the City's estimated electrical usage is over what was budgeted in FY25. As a result, the City is proposing an increase of \$15K for FY26.

### Community Development

The volume and complexity of building/zoning code enforcement and rental inspection actions have increased significantly over the FY25 budget, resulting in higher-than-anticipated demand for legal review, consultation, and enforcement services. These cases often require coordination with legal counsel to ensure proper documentation, legal compliance, and, in some instances, court representation. As a result, expenditures under the Professional Legal Services account have exceeded original projections.

To continue effective enforcement of local codes and maintain community standards in FY26, \$22K in additional funding is needed to support ongoing and upcoming legal work. Without this amendment, the department risks delays in enforcement proceedings or interruptions in legal support for active cases.

### Police

Training is an essential tool in the Police Department. It is required to ensure that officers continue to receive the necessary training and development opportunities to maintain high standards of public safety and operational readiness. There was an oversight in the Police training and travel budget in the FY26 adopted budget. The City is proposing an amendment to increase the budget to the FY25 level. The current budget shows a 68% decrease from the FY25 budget, and the amendment would bring FY26 up to the FY25 budgeted amount. This will result in an increase of \$44K.

### Fire

The proposed budget from the Fire MFO indicated an 8.8% increase over FY25. The City's FY26 adopted budget included an 8% increase. However, the City's portion of the MFO decreased by 1.2% based on valuation. This resulted in a decrease of .4% from the adopted FY26 budget. This will result in a decrease of \$13K.

## Maintenance

### Streets

The City has adopted a more robust vehicle preventive maintenance schedule that changed our frontend loaders and dump trucks from mileage/hours to yearly preventive maintenance. The result is less down-time and improved vehicle life. FY24 was \$45K over budget and FY25 is projected to be \$40K over budget. The City is proposing a \$44K increase to the FY26 budget to bring us in line with the actual spend for FY24 and FY25.

## Capital Outlay

### Police

TASER X - The Police Department is requesting the purchase of 35 TASER X devices and accessories to replace the currently issued TASER X26P which has reached its end-of-life and will no longer be supported beginning 12/31/2025. The cost of this upgrade to current technology would be a total cost of approximately \$166,000 over a five-year time frame. The cost in year one is expected to be approximately \$50,000 with years two through five being \$29,000, annually.

In Car Video Systems - The City's Police Department does not currently have in car video systems in any of the patrol cars. This is vital piece of equipment for a police officer, and the purchase of these cameras has been included in the FY26 budget amendments. This will help to ensure officer safety, transparency, evidence collecting and legal support. The initial outlay will be \$65K in FY26 with an additional \$58K in the next four years for a total cost of \$300K.

## Summary

### Fund Balance

#### FY25

The net impact to the General Fund for FY25 is an anticipated increase in the fund balance of \$2.6M. The expected increases in restaurant tax of \$300K along with the projected increase in sales tax revenue of \$1.4M net an increase in revenue of \$1.6M. FY25 expenditures are projected to come in under budget by approximately \$202K. The revenue and expenditure changes, combined with a fund increase of \$1.6M from actual FY24 numbers, will result in a \$2.6M increase in fund balance from the budget.

#### FY26

FY26 proposed increase in revenue is \$2M. This is a result of proposed increase in restaurant taxes of \$331K, property tax of \$613K, sales tax of \$418K, parking garage fees of \$145K and grant income of \$500K. The FY26 proposed increase in expenditures is \$1.1M with the majority of the increases related to personnel expenses of \$896K. This will result in an increase in the fund balance of \$549K in FY26. With the increase from FY25 of \$2.6M, the net impact to the General Fund in FY26 is a increase of \$3.2M from the original adopted budget.

## Overview

The City issues long-term debt to finance major capital purchases most often to construct, improve or expand City facilities and infrastructure, but also for major capital equipment. The Debt Service Fund (DSF) is used for payment of principal and interest on the City's bond debt that is not related to economic development or redevelopment.

The primary sources of funding for the Debt Service Fund include revenue from a designated property tax levy (currently \$.04 per \$100 of assessed valuation) and the half-cent local option sales tax.

## Revenue

### Property Taxes

Property tax accounts for approximately 21% of the Fund's revenue and is projected to generate \$1M in FY26 which is an increase of \$49K or 5.0% over the original adopted budget.

### Sales Taxes

#### FY25

The most significant source of funding for the DSF is the sales tax which is 68.9% of the Fund's total revenue. The City's sales and use tax remains strong and is expected to continue to increase with The Astro Theater completing their first full year of operation and anticipated growth in City Centre and the Southport area. The FY25 year-end estimate (YEE) is \$3.7M, a 23.4% increase over the original budget. This is an increase of \$711K.

#### FY26

An analysis of current sales & use tax collections shows a five-year average increase of 6% year-over-year. Based on this data, along with the adjusted increase in FY25 over FY24, we are proposing an FY26 increase of 6% over current budget. This would equate to a conservative 3.5% increase over the adjusted FY25 actual. The proposed increase is \$209K.

## Expenditures

#### FY26

Proposed changes to FY26 are the result of timing for issuing bonds for capital improvement projects. As a result of delaying the issuance of a bond from FY25 to FY26, the City is proposing a decrease in interest payments of \$61K.

## Fund Balance

#### FY25

The FY25 YEE fund balance is projected to be \$450K more than the FY25 budget. This is attributed to the increase in sales tax revenue of \$711K offset by a decrease of interest income of \$170K.

#### FY26

The FY26 fund balance is projected to be \$771K more than the original FY26 budget. This is the result of the increase in revenue from sales tax of \$209K and property tax of \$49K along with the \$450K from FY25.

## Overview

Redevelopment of the 84th Street Corridor has been one of the City's top strategic priorities since the decline of the area began prior to 2006. A 15-month community visioning process that began in 2009 led to the development of an initial concept for the 84th Street Corridor, known as Vision 84.

Subsequently, the City Council declared the 84th Street Redevelopment Area substandard and blighted, and the La Vista Community Development Agency was created. In 2013, a Redevelopment Plan was adopted.

To help fund public improvements, La Vista voters approved an additional one-half percent sales and use tax for public infrastructure projects within the 84th Street Redevelopment Area in 2014. This tax will remain in place while there are outstanding bonds associated with redevelopment.

Currently in the redevelopment area, a private developer is constructing a mixed-use development, City Centre, that includes residential, commercial and entertainment components. The City continues to make improvements to Central Park that include The Link, Edgewood Blvd. connection, lighting, playground, shelter replacement, pedestrian underpass and 84th St. Streetscape.

## Revenue

### Sales & Use Taxes

#### FY25

The City's sales and use tax remains strong and is expected to continue to increase with The Astro Theater completing their first full year of operation and anticipated growth in City Centre and the Southport area. The FY25 YEE is \$3.7M, a 23.4% increase over the original budget. This is an increase of \$711K.

#### FY26

An analysis of current sales & use tax collections show a five-year average increase of 6% year-over-year. Based on this data, along with the adjusted increase in FY25 over FY24, we are proposing an FY26 increase of 6.0% over current budget. This would equate to a conservative 3.5% increase over the adjusted FY25 actual. The proposed increase is \$209K.

### Bond Issuance

The FY25 budget included the issuance of a \$7M bond. This bond was to fund the 84th St. Trail Giles to Harrison Project as well as a portion of the design and construction of the new swimming pool. However, timing on those projects has changed, and the need to issue a bond in FY25 was moved to FY26.

### Grant Revenue

The 84th St. Trail Giles to Harrison Project has a large federal grant tied to it. Timing on this project has moved the grant revenue from FY25 to FY26.

# Redevelopment Fund

## Expenditures

### CIP

The FY25 capital project 84th St. Trail Giles to Harrison was originally budgeted for \$4.3M, of which \$4.2M will carry over into FY26.

### FY26 New Projects

CMDV25001 - Bike Share Stations - \$66,000 - With the recent improvements to Central Park and City Centre, and the future streetscape improvements and trail construction adjacent to Park View Boulevard, a bike share station will serve to further activate the spaces and provide another amenity for residents and visitors. They also promote active living and provide residents who do not own bicycles with an opportunity to ride them. We have received support from the public for the installation of bike share stations through public engagement activities, and connecting with the regional bike share network is directly referenced in the City's comprehensive plan (Goal Move-1.6). The recently adopted Active Mobility Plan calls for the placement of a bike share station in City Centre as a short-term, high-priority goal.

PARK26001 - Barmettler Square - \$1.5M - The design and construction of the first of two welcoming, interactive public plaza spaces to facilitate and enhance the desired atmosphere in the City Centre development. Built in conjunction with the adjoining hotel development in City Centre, Barmettler Square will provide additional space for both residents and visitors to gather. As Barmettler Square lies near the center of La Vista City Centre, this area will be very visible and will be well utilized by the public.

## Fund Balance

### FY25

The FY25 YEE fund balance is \$5.3M lower than the FY25 budget. The decrease in revenue from the movement of the bond issuance and grant revenue from FY25 to FY26 accounts for \$10.5M which is offset slightly by the \$711K increase in sales tax revenues. The decrease in expenditures of \$4.1M for the projects carried into FY26 offsets the decrease in revenue. These changes in addition to the \$404K increase from actual FY24 fund balance explain this decrease.

### FY26

The FY26 proposed fund balance is a decrease of \$360K. The proposed increase in sales tax revenue of \$209K and bond and grant revenue of \$10.5M along with the increase in expenditures from the carry over projects of \$4.2M and additional projects of \$1.6M result in an increase of \$4.9M. This increase along with the \$5.3M decrease from FY25 result in the \$360K decrease in FY26.

## Overview

The Sewer Fund is an enterprise fund that accounts for business-type activities supported largely through user charges. Sewer use fees are the primary source of revenue for the fund. Wastewater treatment provided by the City of Omaha is a significant portion of the fund's expenditures. The FY25 – FY26 Biennial Budget includes funding to support strategic investments for planned public infrastructure and facilities that meet projected growth and development demands.

## Revenues

The FY25-FY29 Sewer Rate Study, filed by the City Council in FY23, recommended a 5% annual user rate increase for FY25 and FY26. Accordingly, the City Council approved the increase in the FY25-FY26 Budget.

## Expenditures

### CIP

The FY25 budget included funding for a carry-over capital project. This project is projected to be completed in FY25. The carry-over funds from FY24 were \$800K, however, due to timing on the project, \$920K was actually carried over to FY25. There is no carry-over projected for FY26 and no amendments to the adopted CIP budget.

### Personnel Expenses

The FY26 amendment proposes increases in personnel expenses of \$82K. This includes salary increases of \$35K, which is made up of the annual increases and \$30K for an anticipated retiree payout. Also, included in the proposed increase is \$46K in health insurance premium expenses.

### Transfers

Per City Council policy, the Sewer Fund transfers any reserves over 25% to the Sewer Reserve Fund. The proposed increase of a \$706K transfer to the Sewer Reserve Fund is a result of the increased fund balance rolling from FY24. This will bring the reserve in the Sewer Fund back down to 25.0%.

## Fund Balance

### FY25

The FY25 YEE fund balance is \$1.1M higher than the budget as a result of \$1.1M increase from FY24 estimated ending balance to the actual ending balance.

### FY26

The FY26 proposed fund balance is \$336K over the adopted budget. This is a result of the \$82K increase in personnel expenses combined with the increased transfer to the Sewer Reserve Fund of \$706K and the \$1.1M increase in fund balance from FY25.

# Sewer Reserve Fund

## Overview

The Sewer Reserve Fund is an extension of the Sewer Fund. In FY12, a reserve was calculated and included in the cash balance of the Sewer Fund for future infrastructure and equipment replacement. The transfer to the Sewer Reserve Fund was to be determined annually based on maintaining the Sewer Fund with a 25% operating reserve. Funds in excess of 25% were to be transferred to the Sewer Reserve Fund to fund future significant infrastructure and equipment costs.

### FY26

As a result of the increased fund balance in the Sewer Fund, the City is proposing an increase in the transfer from the Sewer Fund of \$706K. This will increase the Sewer Reserve Fund to \$5.2M at the end of FY26.

## Overview

The City awarded the first contract for the operation of a municipal Keno lottery on May 16, 1989. Since that time, proceeds from the game have been utilized to construct municipal facilities and to improve public services and quality of life amenities within the City.

The City's reputation for creating community events for residents of all ages has become a cornerstone of the quality of life amenities provided by the City. In order to better plan and execute activities and events, it was determined necessary to budget more like a department with expenditures such as personnel services, commodities, contractual services and other charges defined in the Community Events budget. This new budget department within the Community Services division is responsible for all public events such as La Vista Days, Octoberfest, Falloween, the Easter Egg Hunt, Holiday Tree Lighting and more.

## Revenues

### FY25

The YEE revenue is projected to be \$100K less than the FY25 budget of \$900K. Expansion of Nebraska casino gambling along with changes to the keno contract have lead to this reduction in revenue.

### FY26

No changes are recommended for the FY26.

## Expenditures

### FY26 Amendment Requests

#### Food Events

The FY26 proposed increase of \$5K is to cover the increased cost of food at Falloween (formally Halloween Safe Night) and 'Twas the Lights. Increased attendance and food costs have resulted in need to increase this budget.

#### Community Events

The FY26 proposed increase in event supply cost of \$17K will cover the cost of t-shirts (\$5K) for volunteers at our major events, additional movie nights (\$5K) and the reintroduction of reindeer and a larger activity tent at Santa's Workshop (\$7K).

#### Professional Services

The FY26 proposed decrease of \$15K is for the removal of performance measurement software. This project has been put on hold until we have staff to manage it.

## Fund Balance

### FY25

The fund balance for FY25 is \$249K more than the budget. FY25 expenses are expected to come in \$119K under budget. This is the result of an open Events Coordinator position for most of FY25 as well as a reduction in professional services expenses. This savings combined with FY24 actual fund balance being \$126K more than the FY24 YEE results in the \$249K increase.

### FY26

FY26 proposed increase in expenditures of \$25K combined with the FY25 YEE, result in a net increase in fund balance of \$139K for FY26.

# Economic Development Program Fund

## Overview

The Local Option Municipal Economic Development Act (LB840,1991) authorizes incorporated cities and villages to collect and appropriate local tax dollars, including sales and/or property tax, for economic development purposes, if approved by the local voters. On September 30, 2003, La Vista voters approved an Economic Development Program, and the City Council subsequently adopted Ordinance No. 919 (as amended by Ordinance No. 921) that established an economic development program that is in effect through September 30, 2029.

## Fund Balance

### FY25

The FY25 YEE fund balance is \$37K higher than the budget. This is due to the FY24 actual ending balance being higher than the FY24 YEE.

### FY26

FY26 proposed amendments include a reduction in the principal payments on the loan to City Ventures. When the original budget was prepared the actual amortization schedule had not been completed. The schedule is completed, and the principal and interest payments were adjusted to reflect that schedule. The result is a decrease in fund balance of \$367K, leaving an ending fund balance of \$15K.

# Internal Services Fund

## Overview

In FY25 the City made the decision to move to self-funded health insurance. The goal of this change was to be able to keep premiums from increasing by the historical rate that the City has seen and to have more flexibility with our health benefits. In order to accommodate this change, the City added an Internal Services Fund as a holding and pass through fund. Both the employee and employer premiums are transferred into this fund each month then the fees and claims are paid out of this fund. This fund is budgeted to have a zero balance at the end of each fiscal year. In FY25, funds needed to be established to begin funding claims. The City had \$908K of HRA funds on reserve for the start-up of self insurance. In FY25, \$367K of that will be transferred to the Internal Services Fund to cover claims. Any excess funds at the end of the fiscal year will be transferred back into the General Fund. We are not anticipating any excess funds in FY25 or FY26 as we will still be in the start up phase.

## Fund Balance

### FY25

The FY25 YEE fund balance is \$0. The estimated premiums for FY25 are \$1.6M, and the estimated expenses are \$2M. This leaves a deficit of \$367K, which will be transferred from the \$908K held in reserve in the General Fund creating a \$0 fund balance.

### FY26

FY26 proposed amendments are \$2.3M in revenues from premiums and \$2.6M in estimated expenses. This leaves a deficit of \$335K, which will be transferred from the remaining dollars held in reserve in the General Fund. This will leave \$206K on reserve in the General Fund and an Internal Services Fund balance of \$0.

# Police Academy Fund

## Overview

On April 4, 2017, the City Council approved an Interlocal Cooperation Agreement to create a joint Sarpy-Douglas Law Enforcement Academy (SDLEA). As a result, recruits from five agencies (La Vista, Papillion and Bellevue Police along with Sarpy and Douglas County Sheriffs) as well as Metropolitan Community College (MCC) are now being trained locally.

The Police Academy Director and Training Instructor are housed at Metropolitan Community College and supervised by the Chief of Police. Funding for these positions is made possible through annual participation fees required from member agencies.

## Fund Balance

### FY25

FY25 YEE fund balance is \$69K higher than the FY25 budget. The increase is driven by an increase of \$47K in the actual FY24 fund balance as well as an increase in agency contribution of \$23K in FY25. At the time of the FY25 budget, MCC was not paying the full contribution amount, but that changed in FY25.

### FY26

The proposed FY26 fund balance is projected to be \$88K over the original adopted fund balance. The increase is driven by the FY25 increase of \$69K and an additional \$19K of proposed increases to the fund balance in FY26. The FY26 increases are from an increase in revenue from the agency contributions of \$23K offset slightly by personnel cost increase of \$4K.

# Qualified Sinking Fund

## Overview

Under the Nebraska Budget Act, the City Council passed Resolution 98-145 authorizing the creation of a Qualified Sinking Fund (QSF) to pay for the acquisition or replacement of tangible personal property with a useful life of five years or more. The QSF is required to be maintained separately from the General Fund. The fund was created as a mechanism to set aside funds periodically to be used for future capital equipment purchases.

Interfund transfers provide the revenue. There are no changes for FY26.

## Overview

Tax Increment Financing (TIF) is a useful method for stimulating private investment in substandard and blighted areas that have been designated to be in need of economic revitalization. Through the use of TIF, municipalities typically divert future property tax revenue increases from a defined redevelopment area toward an economic development project or other public improvements. There are no changes to the FY26 budget.

# Capital Improvement Fund

## Overview

Capital Improvement Program (CIP) projects are funded directly in the Redevelopment Fund and the Sewer Fund. The Capital Improvement Fund encompasses CIP projects not associated with the aforementioned funds. Funding for the Capital Improvement Fund is through a variety of sources including issuance of bonds, grants and transfers from the General Fund and Lottery Fund.

## Fund Balance

### FY25

FY25 YEE fund balance is \$305K less than the budget. This is the result of a \$1.9M decrease from the FY24 YEE to the actual. At the end of FY24, the City's auditing firm recommended moving the remaining bond proceeds that were in the Debt Service Fund to the Capital Improvement Fund to hold the money in the fund that it is being spent in. At the time of the FY24 YEE, this actual number was over-estimated. This \$1.9M decrease is offset by the FY25 decrease in project spend of \$1.2M and increase in interest revenue of \$368K netting the estimated \$305K decrease in FY25.

### FY26

Proposed increases in capital expenditures of \$630K in FY26 along with the \$305K estimated FY25 decrease results in a projected \$936K decrease in fund balance for FY26.

## Expenditures & Transfers Out

### CIP

Of the \$9.9M budgeted expenditures for FY25, only \$8.6M is projected to be completed by the end of the fiscal year. Accordingly, \$700K will be moved into FY26. The FY26 budget was \$3M and an additional \$668K has been added. The following is a list of carryovers, changes and new projects.

### Changes or Adjustments

- Giles Rd Widening – Carry Over \$700K
- Concrete Base Repair – Reduced by \$400K, for work completed in FY25
- UBAS Street Rehab – Reduced by \$300K, for work completed in FY25

### New

- Library Remodel- \$630K- The Library's programming and staffing needs have changed significantly since this facility was constructed. More space is needed for staff office, STEM activities and study rooms. A project was included in the FY24 CIP for a space needs study at the Library. The original architect for the building, BCDM, was contacted for advice regarding potential building modifications that would better meet the needs of the staff and the public. BCDM reps met with City staff over a several month period to gather ideas and discuss potential concepts for updates to the facility. This work was done at no charge to the City. In August 2024, Council authorized a professional services agreement with BCDM Architects to prepare probable construction costs for the proposed changes as well as a phasing plan. In January 2025, the proposed plans and cost information was presented to
- the City Council. The City will be applying for a grant to cover a portion of the cost of this project.
- Pedestrian Door Garage #2 - \$38K- In looking at the pedestrian flows from the northeast stair tower through the Lot 10 Breezeway and ultimately to the Astro Theatre, we believe we would be able to insert a door in the east face of the glass curtain wall between the elevator and the stairs. This door would provide a more intuitive and safer route for patrons of the garage.

### Note:

For FY26, the Finance Department proposes the creation of a Grant Writer/Purchasing Manager position. This role would significantly enhance the City's ability to secure external funding and optimize procurement processes.

The Grant Writer component of this position would be responsible for researching, identifying, applying for, and meticulously tracking grants that align with the City's mission and ongoing projects. Currently, the City expends an estimated \$8,000 to \$15,000 per grant application through Simple Grants, with costs varying based on complexity, time invested in application, and tracking. It's important to note that some grants offer reimbursement for application and tracking expenses. The strategic aim for this position is to become self-sustaining through a projected increase in successful grant awards.

The Purchasing Manager aspect of the role would oversee the issuance and tracking of all Requests for Proposals (RFPs) for the City. This individual would ensure strict adherence to the City's purchasing policies and all relevant state statutes. Furthermore, the Purchasing Manager would actively seek out cooperative purchasing opportunities to achieve cost reductions for the City.

### Note:

To cover payout for possible retirements in FY26, the City has added \$100K to the HR budget.

The Self Insurance Expense line was to cover the City's contribution to the HRA. Since we have adopted the self-insurance program, we no longer have an HRA contribution, this has been removed from the FY26 budget.

# Appendix

## Note:

The volume and complexity of building/zoning code enforcement and rental inspection actions have increased significantly over the FY25 budget, resulting in higher-than-anticipated demand for legal review, consultation, and enforcement services. These cases often require coordination with legal counsel to ensure proper documentation, legal compliance, and, in some instances, court representation. As a result, expenditures under the Professional Legal Services account have exceeded original projections.

To continue effective enforcement of local codes and maintain community standards in FY26, additional funding is needed to support ongoing and upcoming legal work. Without this amendment, the department risks delays in enforcement proceedings or interruptions in legal support for active cases.

### Note:

As we have completed the first full year of operation at the Link, the City's estimated electrical usage is over what was budgeted in FY25. As a result, the City is proposing an increase of \$15K for FY26.

### Note:

In FY25, the FOP salaries were adjusted for open positions. In FY26, all positions are projected to be filled by the beginning of the fiscal year. As a result, there is an increase of 5% in the Police budget over what was in the adopted FY26 budget. This is an increase of \$356K, including salaries, taxes and retirement.

In FY26, the Police are proposing a change in title of one of the Police Captain positions to Deputy Police Chief. This change would aid the department in creating a succession plan as well as establish a point of contact in the absence of the Chief. This would not add a position or a body to the staff, so the dollar impact to the budget would be less than \$10K.

Training is an essential tool in the Police Department. It is required to ensure that officers continue to receive the necessary training and development opportunities to maintain high standards of public safety and operational readiness. There was an oversight in the Police training and travel budget in the FY26 adopted budget. The City is proposing an amendment to increase the budget to the FY25 level. The current budget shows a 68% decrease from the FY25 budget. The amendment would bring FY26 up to the FY25 budgeted amount.

TASER X - The Police Department is requesting the purchase of 35 TASER X devices and accessories to replace the currently issued TASER X26P which has reached its end of life and will no longer be supported beginning 12/31/2025. The cost of this upgrade to current technology would be a total cost of approximately \$166,000 over a five-year time frame. The cost in year one is expected to be approximately \$50,000 with years two through five being \$29,000, annually.

In Car Video Systems - The City's Police Department does not currently have in car video systems in any of the patrol cars. This is vital piece of equipment for a police officer, and the purchase of these cameras has been included in the FY26 budget amendments. This will help to ensure officer safety, transparency, evidence collecting and legal support. The initial outlay will be \$65K in FY26 with an additional \$58K in the next four years for a total cost of \$300K.

### Note:

The proposed budget from the Fire MFO indicated an 8.8% increase over FY25. The City's FY26 adopted budget included an 8% increase. However, the City's portion of the MFO decreased by 1.2% based on valuation. This resulted in a decrease of .4% from the adopted FY26 budget.

See note on following page.

**Note:**

In FY25, the salaries were adjusted for open positions. In FY26, all positions are projected to be filled by the beginning of the fiscal year. As a result, there is an increase of 4% in the Public Works budget over what was in the adopted FY26 budget. This is an increase of \$54K including salaries, taxes and retiree payout.

The City has adopted a more robust vehicle preventive maintenance schedule that changed our frontend loaders and dump trucks from mileage/hours to yearly preventive maintenance. The result is less down time and improved vehicle life. FY24 was \$45K over budget, and FY25 is projected to be \$40K over budget. The City is proposing a \$44K increase to the FY26 budget to bring us in line with the actual spend for FY24 and FY25.
