RE: Comparative Performance Measurement Program Renewal Invoice

The ICMA Center for Performance Measurement was created to help cities and counties obtain accurate, fair, and comparable data about the quality and efficiency of service delivery to their citizens. It is grounded in the belief that appointed managers, elected officials, department heads, staff and citizens all need a way to assess how well government services are being delivered and to establish priorities for the future.

Below is the invoice for your annual participation in ICMA's Center for Performance Measurement. To avoid an interruption in program services please remit payment with the invoice to address below.
