## Debt Service Fund

The primary sources of funding for the Debt Service Fund budget includes the revenue from a \$0.14 property tax rate and one-half of one percent local option sales tax. The City's overall property tax levy of .55 will stay the same. The revenue exceeds principal and interest payments generated through property and sales tax through FY18 as a result of the proceeds from the new bond proceeds in FY16 and new bond proceeds anticipated in FY17.

The debt service coverage ratio (DSCR) is a measure of the cash flow available to pay current debt obligations. A DSCR greater than one (1) means that there is sufficient income to cover debt obligations. The DSCR's for both FY17 and FY18 are 2.92 and 1.42, respectively. The future DSCRs also look good until FY21 when the City's overall debt peaks.

### Concluding FY16 Financial Performance

The City received an upgraded bond rating of Aa3 up from A1 by Moody's Investor in FY15. On September 15, 2015, the City Council approved Ordinance No. 1264 authorizing the issuance of General Obligation Refunding Bonds in the amount of \$8,447,635 for the purpose of refunding the following outstanding issues:

- \$2,672,021 outstanding principle amount of General Obligation Refunding bonds, Series 2011A, dated June 29, 2011
- \$4,660,357 outstanding principle amount of General Obligation Refunding Bonds (Off-Street Parking Project), Series 2011B, Dated June 29, 2011
- \$1,115,257 outstanding principle amount of General Obligation Refund Bonds, Series 2011, issued by SID No. 195 of Sarpy, County, Nebraska, dated April 15, 2011.

Also in FY16, the City issued bonds in the amount of \$2,100,000 for the City Parking Lot Access Road.

**Revenues** (less bond proceeds) are estimated to total approximately \$4.9 million, which is slightly more (\$304,563) than revenues received in FY15. The year-end estimate is an approximate 13.1% increase over the FY16 budgeted amount (less bond proceeds) of \$4.3 million.

**Expenditures** for FY16 are projected to be nearly \$3.8 million, which is approximately 8.65% less than the budgeted amount of \$4.2 million. This is a \$363,735 decrease over FY16 budget and can primarily be attributed to the interest savings related to the bond refinancing.

**Fund Balance** — The difference in estimated revenues and expenditures, combined with a beginning fund balance, contribute to an estimated ending fund balance of \$6.8 million. This is a 39% increase over FY16 budget. The contributing factors in the increase in the fund balance is due to \$2.1 million bond yet to be transferred to CIP Fund for the construction of Portside Parkway.

#### FY17 Budget

**Revenues** for the proposed FY17 budget are estimated at \$15.1 million, which reflects \$10 million in bond proceeds for the construction of necessary public infrastructure. Once adjusted for bond proceeds, the FY17 proposed budget is approximately \$5.1 million which reflects a \$812,837 increase in revenue, approximately 19%.

**Expenditures** for FY17 are projected to be \$3.9 million, which reflects a slight decrease from the budgeted amount for the FY16 Adopted Budget level of \$4.2 million. This is due to the timing of projects.

**Fund Balance** — After expenditures and transfers to the other funds, the budget projects an ending fund balance of \$10.4 million, which is an increase of \$5.5 million from the FY16 budget. The increase in the fund balance is primarily related to the timing of projects and subsequent transfers to the CIP.

#### FY18 Budget

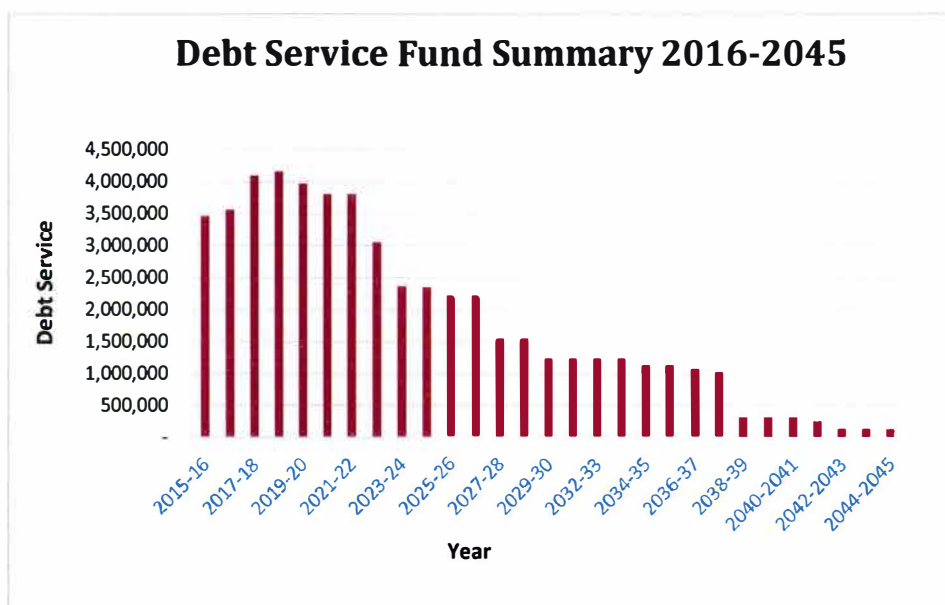

**Revenues** for the FY18 proposed budget are estimated at \$5.5 million, which reflects a 6.6% increase over the FY17 recommended budget. Once adjusted for bond proceeds, the FY17 proposed budget is approximately \$5.1 million from which the FY18 budget reflects increase in revenue of \$338,583.

**Expenditures** recommended for the proposed FY18 budget are anticipated to be approximately \$4.5 million, reflecting an increase of \$538,518 from the recommended FY17 budget. This is due to the increase of newly issued bond principal and interest payments for new city projects.

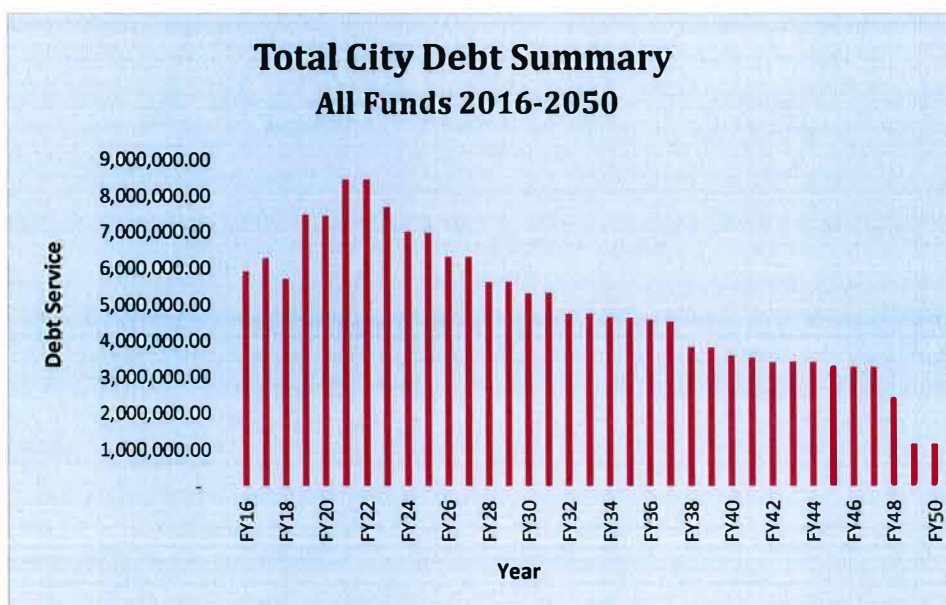

**Fund Balance** — After expenditures and transfers to the other funds, the budget projects an ending fund balance of \$5.8 million, which is a decrease of \$4.55 million or approximately 44% decrease from FY17. This can be attributed to the transfer of bond proceeds to the CIP.

## Summary

A summary of the principle and interest payments that will be paid from the Debt Service fund from FY16 through FY45 is highlighted in the chart below. The trend shows that current debt obligations peak in FY19. Off-Street Parking, Economic Development, Sewer and Redevelopment Funds are included in the second chart.

The following chart identifies debt in all funds from FY16 through FY50. The trend shows that the City's overall debt obligations peak in FY21 and FY22.
