**Re:** Revisions to the Zoning Ordinance, Definitions 2.02

---

**Agenda Item 3A:** Proposed Revisions to City of La Vista Zoning Ordinance - Section 2.02 Definitions

Revisions have been made to the definition section of the Zoning Ordinance to eliminate words or phrases that appear nowhere else in the code; to add definitions to uses that are elsewhere in the code; and to revise content for definitions that are in need of clarity, rewriting, and/or updating.

The American Planning Association's Planners Advisory Service has been utilized to help determine appropriate wording for definitions.

All staff revisions have been submitted, so a final draft will be ready for review on the September Planning Commission agenda.

**Staff Recommendation Item 3A:** Recommend continuance of the proposed revisions with any added changes, if applicable.
